Facts about Euro Fair Statistics

The 2007 edition contains the audited statistics of 1.899 trade fairs and exhibitions from 20 countries, including

Austria	30	Hungary	26	Russia	118
Croatia	22	Italy	186	Slovak Republic	39
Czech Republic	74	Moldova	1	Slovenia	1
Denmark	4	Norway	1	Spain	371
Finland	83	Poland	87	Sweden	66
France	459	Portugal	47	Ukraine	32
Germany	245	Romania	7		

At these trade fairs a total of 592.999 exhibitors, 55,4 million visitors and 23,1 million sq.m. rented space were registered. 42 % of the trade fairs address themselves to trade visitors, 34 % to private visitors and 24 % to both target groups.

The UFI – The Global Association of the Exhibition Industry estimates that all trade fairs in Europe have around 1,5 million exhibitors and 160 million visitors. That means that the audited trade fairs presenting detailed figures in Euro Fair Statistics, represent one third of the European trade fair market.

Exhibitions and Fairs

The economic relations between the individual European nations are becoming more intense year by year. As a result there is an increasing need for information about the economies of other countries. Because trade fairs and exhibitions play a very important role in external trade, companies and associations have a keen interest in reliable information about foreign trade fairs. This report's aim is to satisfy this need. It includes audited and comparable statistical data for 1.899 events in Austria, Croatia, the Czech Republic, Denmark, Finland, France, Germany, Hungary, Italy, Norway, Poland, Portugal, Romania, the Slovak Republic, Slovenia, Spain, Sweden and Ukraine. Thus the auditing-organisations from the countries involved wish to make a contribution to making trade fair planning at an international level simpler and more rational. In the next few years they intend to include further countries in which the trade fair statistics will also be audited.

The statistics listed in this report were audited in Austria, Croatia, the Czech Republic, France, Germany, Hungary, Norway, Poland, Portugal, Romania, the Slovak Republic, Slovenia, Spain, Sweden and Ukraine by independent public accountants, in Denmark, Finland, Moldova and Russia by independent auditing-companies, in Italy by the Inter-Regional Trade Fair Coordination Committee of the Conference of the Presidents of Regions and Autonomous Provinces. The figures which have been reproduced on the following pages have been collected in the individual countries according to practically identical criteria. Differences can be seen in the definitions of the exhibitor, space and visitor figures.

Comprehensive statistical material and further information about the individual events can be obtained from the respective auditing-organisations. In addition to this report which is intended to provide an initial review, they publish their own reports in the native languages and further translated versions.

The figures listed in this report are under control of:

Locations of the Events

Locations of the Events

Definitions

FKM-Austria

Space	Exhibitors	Visitors
The total rented space of an event is based on the amount of space rented by the individual exhibitors. The amount of rented space is divided into hall areas and open-air areas, and is also differentiated between domestic and foreign exhibitors.	Exhibitor figures are compiled as the number of companies who have rented an individual stand and who use their own personnel to promote goods or services. Represented firms are companies whose goods or services are offered by another exhibitor. The number of exhibitors may not be added to the number of represented firms.	The number of visitors is based on the amount of entrance tickets sold or is based on an electronic registration system. One entrance per visitor per day is counted. Visitors buying a multiple entrance ticket can use the ticket on several days during the show (entrance is counted based on the ticket price – if the ticket costs 20 % more than the one day ticket, two visitors are counted). Complimentary tickets, exhibitor tickets, press tickets etc. have not been taken into consideration. Free entrance tickets are counted if based on an electronic registration system and the registration includes the full address of the visitor.

SFC, Denmark/Norway/Sweden / DO, Denmark / FUTFO, Finland

Space	Exhibitors	Visitors
The total rented space of an event refers to the area used by and paid for by the exhibitors. A distinction is made between hall space and open-air space. Areas given free of charge to exhibitors are not counted.	An exhibitor with his own stand (direct exhibitor) is one who has obtained a contract for an exhibition stand in its entirety, or who uses a specified, clearly delineated portion of an exhibition stand using his own personnel to promote goods or services. A represented firm (indirect exhibitor) is one whose products or services are offered through a direct exhibitor. The number of exhibitors with their own stands may not be added to the number of represented firms, except when evident.	The number of visitors is the sum of paid entries, invitation cards used, and other used tickets which can have been obtained by conference visitors who have had access to the trade fair grounds. A visitor who visits a trade fair over a period of many days is counted once a day. Exhibitor, press, service and personnel cards and passes are not counted.

Definitions

OJS, France

Space	Exhibitors and co-exhibitors	Visitors
The given figures refer to area (booth space) occupied by exhibitors and co-exhibitors whether it is paid or unpaid. It corresponds to the number of square meters effectively occupied. It doesn't include in this case the area used for features in relation with the theme of the exhibition.	The main exhibitor is the entity contracting directly with the organiser and presents its products/services with its own personnel. Co-exhibitor is the entity which presents its products/services on the main exhibitor's stand under his trade mark with its own personal.	Any person entering the fair / trade show during its official opening hours who presents at control access either a ticket, or a card proving payment on the entrance fee or an invitation card with a numbered control slip is considered as visitor. A journalist is counted as visitor. Visitors exclude the staff of exhibitors, exhibition centres, services providers and organisers' staff. An additional visit, to be verified as made on a different day from the first visit is considered as a re-visit. The visitor whose address is located in another European or third country is considered as foreign visitor. The number of visits, called "visitors entries" (which are listed in the Euro Fair Statistics 2007) is the total number of visitors admissions at the fair / trade show during its official opening hours.

CENTREX: Czech Republic, Hungary, Poland, Romania, Slovak Republic, Ukraine

Space	Exhibitors	Visitors
The rented space is divided up in hall space and open-air space which is rented and paid up by exhibitors. The total space data includes the special demonstration area as well.	An exhibitor with his own stand (direct exhibitor) is one who occupies a stand for his company receives the bill from the exhibition organiser and settles it directly. A represented firm (indirect exhibitor) is one who does not have a stand of his own, but presents his products on a stand of a direct exhibitor. Co-exhibitors at an exhibitor's stand or participants at a collective stand are also considered as exhibitors for statistical purposes if they exhibit their own goods employing their own personnel on the exhibitor's stand or at a common stand organised by a collective stand organiser and their autonomy can be undoubtedly recognised even without physical separation. These companies are considered as exhibitors regardless that the invoice is being issued on the exhibitor or on a collective stand organiser. The nature of the participation and the identity of each exhibitor at the stand should be undoubtedly clear from the application form sent to the exhibition organiser.	The number of visitors is calculated on evidence. The number of paying visitors is established through financial evidence: number of sold tickets (prepaid or on the spot) and number of tickets/entry passes paid by the exhibitor or a third party. Visitors with season tickets are calculated as financially reasonable minimum number of use of the tickets. Number of family tickets sold are calculated as 4 visitors. Persons arriving with vouchers, registration cards or similar valid free passes, tickets can be counted as visitors only if evidence is available. The number of foreign visitors is established either by tickets sold out at special counters for foreigners, filled-in-registration cards with evidence of the foreign origin of the visitor or through representative visitor surveys.

Inter-Regional Trade Fair Coordination Committee, Italy

Space	Exhibitors	Visitors
The rented space of a fair is the area effectively occupied by the exhibitors, invoiced and paid at the official price. The space is divided up in hall space and open-air space and in area rented by Italian and foreign exhibitors. Areas given free of charge to private exhibitors are not counted.	An exhibitor with his own stand (direct exhibitor) is one who occupies a stand for his company, receives the invoice and pays it. Exhibitor figures are divided up in Italian and foreign exhibitors. A represented firm (indirect exhibitor) does not have a stand of his own, but is present in the stand of a direct exhibitor. He cannot be considered, if he does not pay the official fee for the participation.	Any person entering a trade fair presenting a ticket or a card proving payment of the entrance fee, or an invitation card with a control slip is considered as a visitor. Visitors admitted free of charge are counted only, if they give elements for their qualification and identification. Foreign visitors are counted only, if their identification is possible. Honorary cards, exhibitor, press and service cards and passes are not counted. Permanent cards are counted only once.

BDO bdc & Associates, Portugal

Space	Exhibitors	Visitors
Obligatorily, the hall space must be distinguished from the open-air space, always using the square meter (m ²) as unit of measure. Rented space should still be decomposed into national and foreign exhibitions. Surfaces granted free of charge and/or supporting activities – restaurants, conferences, shows, circulations and parking should not be considered on the statistics.	Obligatorily, the exhibitors should be separated into direct and indirect exhibitors. These should also be subdivided between national and foreign. An exhibitor is considered direct if he occupies an area rented by himself for display of his products or services. If a representative presents his products in modules of a direct exhibitor, he is classified as an indirect exhibitor (represented firm). In the particular case of the occupied area by the indirect exhibitor being of 9 m ² at least, this one will be considered as direct. The localization of the exhibitor's office determines his classification as national or foreign.	A distinction between national and foreign visitors must be done. Foreign visitors should be identified through registration and control of their personal identification cards showing their address. Non-identified and non-controlled visitors admitted free of charge should not be considered on the statistics as well as, for example, those bearing press cards and, in a general way, all bearing administration passes.

Definitions

Russian Union of Exhibition and Fairs (RUEF): Russia, Moldova, Ukraine

Space	Exhibitors	Visitors
The total rented space includes both hall space and open-air space rented by the exhibitors. The rented space is divided into national and foreign area in accordance with exhibitor classification.	The exhibitor figures include those companies who rented on any terms (paid or free of charge) an individual stand for the full period of an event and who used their own or employed personnel to promote goods and services. Exhibitors are considered main and collective ones. A represented company is one who does not have a stand of his own and whose goods and services are demonstrated by another exhibitor. The number of exhibitors may not be added to the number represented firms.	Visitor figures are determined by an electronic or a non-electronic visitor control, as well as by a number of paid entry tickets and individual invitations collected at the entrance. Speakers and participants of complimentary events (seminars, conferences, congresses etc.) can be taken into consideration if they were registered at the entrance and visited the event. Honorary cards, administration personnel, exhibitors and press cards are not counted.

AFE – Spanish Trade Fair Association, Spain

Space	Exhibitors	Visitors
The amount of exhibition space let is divided into hall areas and open-air areas, and is also differentiated between Spanish and foreign exhibitors. Special shows include stands, displays and demonstrations which deal with the general concept, or specific themes, of an exhibition but are independent of the exhibitors. Gross exhibition space comprises the net exhibition space and the related gangways and service areas.	Direct exhibitor: Exhibitors occupying own stands receive bills from the exhibition organiser which are settled directly. Indirect exhibitor (or firm represented): Exhibitors which do not have own stands, but present products on direct-exhibitor stands. In the case of group or collective participation, the different exhibitors are considered direct where they occupy an area of at least 9 m². Exhibitors occupying a space of less than 9 m² are considered indirect.	Identified visitors: At the entrance of the exhibition these visitors must show a card or numbered slip showing their identification. The number of these visitors is determined according to the number of completed cards or slips. Season tickets are counted once, irrespective of the number of times used. The number of visitors buying their tickets on entry to the exhibition corresponds to the number of tickets sold with proof of the corresponding receipt.
