39% of the exhibitions were addressed to trade visitors, 28% to public visitors and 33% to both target groups.

The breakdown of all the events by industry sector (provided by each partner) is presented in the table on the right. As almost 5% of all events (representing 6% of the total net space rented) had more than one industry sector mentioned, the overall cumulated % respectively reach 105% and 106%. UFI regularly produces some additional analysis on this data in its annual report on Global Exhibition Industry Statistics.

UFI MESSAGE

UFI, the Global Association of the Exhibition Industry is happy to present the seventh UFI edition of this report.

Our goal is continuously to develop the geographical scope of this project and an important step was taken two years ago with the inclusion of certified data, in addition to audited data. This year, data from Switzerland is included for the first time.

Due to the different levels of development and global diversity, methods may vary slightly from country to country but all the national bodies who have taken part in this study guarantee the quality of the statistics they have provided.

UFI strongly believes that auditing should, wherever possible, be done in a consistent manner to make figures comparable and audited events are identified as such in this report with the name of the auditor.

UFI continues to play an important role in developing a basic minimum standard for the industry including the publication and implementation of "UFI's Auditing Rules for UFI Approved Events". The latter are identified in the report.

If you have any questions or comments, please contact Christian Druart at research@ufi.org.

Paris, July 2015

Paul Woodward
UFI Managing Director

DEFINITIONS

AFE Spanish Trade Fair Association (Spain)

Space

The amount of exhibition space let is divided into hall areas and open-air areas, and is also differentiated between Spanish and foreign exhibitors. Special shows include stands, displays and demonstrations which deal with the general concept, or specific themes, of an exhibition but are independent of the exhibitors. Gross exhibition space comprises the net exhibition space and the related gangways and service areas.

Exhibitors

Direct exhibitors: Exhibitors occupying their own stands who receive bills from the exhibition organiser which are settled directly. Indirect exhibitors (or firms represented): Exhibitors which do not have own stands, but present products on direct-exhibitor stands. In the case of group or collective participation, the different exhibitors are considered direct where they occupy an area of at least 9 m². Exhibitors occupying a space of less than 9 m² are considered indirect.

Visitors

Identified visitors: At the entrance of the exhibition these visitors must show a card or numbered slip showing their identification. The number of these visitors is determined according to the number of completed cards or slips. Season tickets are counted once, irrespective of the number of times used. The number of visitors buying their tickets on entry to the exhibition corresponds to the number of tickets sold with proof of the corresponding receipt.

BDO & Associates (Portugal)

Space

The total rented space includes both hall space and open-air space contracted by the exhibitors, whether it is paid or unpaid, and it corresponds to the number of square meters effectively occupied by them. The rented space is divided into national and foreign in accordance with the exhibitor classification.

Exhibitors

The main exhibitor is the entity contracting directly with the organizer. Co-exhibitor is the entity which presents its products/services on the main exhibitor's stand with its own staff. A represented company is one who is not present with their own staff, and whose products or services are present on a main exhibitor's or co-exhibitor's stand. These represented companies are excluded from the calculation of the total number of exhibitors.

Visitors

Any person entering the fair/trade show during its official opening hours who presents at control access either a ticket or a card proving payment on the entrance fee or an invitation card is considered as visitor. Visitors exclude the staff of exhibitors, services providers and organizers. The visitor whose address is located in another European or Third country is considered as foreign visitor. An additional visit, to be verified as made on a different day from the first visit is considered as a repeat visit. The figures presented in the Euro Fair Statistics brochure concern the number of total visits: total number of visitors plus the total number of repeat visits.

CENTREX (Bulgaria, Czech Republic, Hungary, Montenegro, Poland, Romania & Ukraine)

Space

The rented space is divided up in hall space and open-air space which is rented and paid for by exhibitors.

A represented firm (indirect exhibitor) is one who does not have a stand of his own, but presents his products on a stand of a direct exhibitor. Co-exhibitors at an exhibitor's stand or participants at a collective stand are also considered as exhibitors for statistical purposes if they exhibit their own goods employing their own personnel on the exhibitor's stand or at a common stand organised by a collective stand organiser and their autonomy can be undoubtedly recognized even without physical separation. These companies are considered as exhibitors regardless that the invoice is being issued on the exhibitor or on a collective stand organiser. The nature of the participation and the identity of each exhibitor at the stand should be very clear from the application form sent to the exhibition organizer.

Visitors

The number of visitors is calculated on evidence. The number of paying visitors is established through financial evidence: number of sold tickets (prepaid or on the spot) and number of tickets/entry passes paid by the exhibitor or a third party. Visitors with paid passes for a given period are calculated on the basis of a financially reasonable minimum number of uses of the pass. 4 visitors are counted for each family ticket sold. For persons arriving with vouchers, registration cards or similar valid free passes, tickets can be counted as visitors only if evidence is available. The number of foreign visitors is established either by tickets sold at special counters for foreigners, filled in-registration cards with evidence of the foreign origin of the visitor or through representative visitor surveys.
