FACTS ABOUT EURO FAIR STATISTICS

The 2010 edition contains the audited statistics of 1 973 exhibitions from the following 21 countries:

Austria	26
Bulgaria	6
Croatia	7
Czech Republic	58
Finland	80
France	549
Germany	240
Hungary	24
Italy	189
Montenegro	1
Moldavia	1
Norway	1
Poland	226
Portugal	33
Romania	7
Russia	89
Slovak Republic	14
Spain	330
Sweden	57
The Netherlands	14
Ukraine	21

At these events, organized by 434 organizers, a total of 575 597 exhibitors, 52.2 million visitors and 21.04 million square metres of rented space were registered.

46% of the exhibitions were addressed to trade visitors, 39% to public visitors and 15% to both target groups.

UFI estimates that the audited events present in this report represents, in 2010, between 40 and 45% of the European exhibition market in terms of net space rented.

The breakdown of all the events by industry sector (provided by each partner) is presented in the table on the right. As 3% of all events (representing 5% of the total net space rented) had more than one industry sector mentioned, the overall cumulated % respectively reach 105% and 103%. Further analysis will be made next year, in order to take into account biennial events.

INTRODUCTION

Exhibitions play a vital role in today's business world.

It is therefore of fundamental importance that customers have access to reliable exhibition data.

Auditing exhibition statistics provides the most consistent means of measuring return on investment.

This report includes the data provided by the 11 bodies mentioned on the right who guarantee that the events contained in this report have been audited according to the definitions outlined on the following pages.

Further information is available by contacting each auditing body directly (contact details are provided on page 7).

UFI MESSAGE

UFI, the Global Association of the Exhibition Industry, has been responsible for producing this report for the third year. Our goal is continuously to develop the project and a new step was taken this year with the indication of the “industry sector” for all events.

Our plan for the future is to further develop geographical coverage. We also plan to produce some metrics per industry sector and on a 2 year basis, in order to take into account biennial events. Trends at both regional and global levels will also be developed using the data from this report.

Due to the different levels of development and global diversity, methods may vary slightly from one country to another and the data presented in this report remains the sole responsibility of each respective national body. UFI strongly believes that auditing should, wherever possible, be done in a consistent manner to make figures comparable. This enables exhibition organizers to manage exhibitor expectations in terms of attendees from one country to another and allows exhibitors and visitors to make their trade fair decisions based on accurate information. UFI continues to play an important role in developing a basic minimum standard for the industry (including the publication and implementation of “UFI’s Auditing Rules”) and thank all our partners around the world for their contribution to this.

If you have any questions or comments, please contact Christian Druart on research@ufi.org.

Paris, July 2011

Paul Woodward
UFI Managing Director

UFI is the association of the world’s leading tradeshow organisers and fairground owners, as well as the major national and international exhibition associations, and selected partners of the exhibition industry. With 552 members in 84 countries, UFI’s global reach provides unique value to its members through promotion, information and networking.

UFI’s main goal is to represent, promote and support its members and the exhibition industry worldwide. It provides a global networking platform through its events, website and other media where exhibition industry professionals can exchange ideas and experiences.

UFI promotes exhibitions globally as a unique marketing and communications tool. We provide our members with valuable studies and research regarding all aspects of the exhibition industry and offer educational training opportunities and a variety of professional seminars. UFI also deals with issues of common interest to its members through lobbying, our engagement in appropriate international organisations, media campaigns and direct intervention with governments where needed.

All organiser members of UFI must have at least one UFI Approved Events. This growing list of over 850 of the world’s leading exhibitions represents the highest quality international fairs

DEFINITIONS

AFE Spanish Trade Fair Association (Spain)

Space

The amount of exhibition space let is divided into hall areas and open-air areas, and is also differentiated between Spanish and foreign exhibitors. Special shows include stands, displays and demonstrations which deal with the general concept, or specific themes, of an exhibition but are independent of the exhibitors. Gross exhibition space comprises the net exhibition space and the related gangways and service areas.

Exhibitors

Direct exhibitors: Exhibitors occupying their own stands who receive bills from the exhibition organiser which are settled directly. Indirect exhibitors (or firms represented): Exhibitors which do not have own stands, but present products on direct-exhibitor stands. In the case of group or collective participation, the different exhibitors are considered direct where they occupy an area of at least 9 m². Exhibitors occupying a space of less than 9 m² are considered indirect.

Visitors

Identified visitors: At the entrance of the exhibition these visitors must show a card or numbered slip showing their identification. The number of these visitors is determined according to the number of completed cards or slips. Season tickets are counted once, irrespective of the number of times used. The number of visitors buying their tickets on entry to the exhibition corresponds to the number of tickets sold with proof of the corresponding receipt.

BDO & Associates (Portugal)

Space

The total rented space includes both hall space and open-air space contracted by the exhibitors, whether it is paid or unpaid, and it corresponds to the number of square meters effectively occupied by them.

The rented space is divided into national and foreign in accordance with the exhibitor classification.

Exhibitors

The main exhibitor is the entity contracting directly with the organizer.

Co-exhibitor is the entity which presents its products/services on the main exhibitor's stand with its own staff.

A represented company is one who is not present with their own staff, and whose products or services are present on a main exhibitor's or co-exhibitor's stand. These represented companies are excluded from the calculation of the total number of exhibitors.

Visitors

Any person entering the fair/trade show during its official opening hours who presents at control access either a ticket or a card proving payment on the entrance fee or an invitation card is considered as visitor. Visitors exclude the staff of exhibitors, services providers and organizers.

The visitor whose address is located in another European or Third country is considered as foreign visitor.

An additional visit, to be verified as made on a different day from the first visit is considered as a repeat visit.

The figures presented in the Euro Fair Statistics brochure concern the number of total visits: total number of visitors plus the total number of repeat visits.

CENTREX (Bulgaria , Czech Republic, Hungary, Poland, Romania, Slovak Republic & Ukraine)

Space

The rented space is divided up in hall space and open-air space which is rented and paid for by exhibitors. The total space data also includes the special demonstration area.

Exhibitors

An exhibitor with his own stand (direct exhibitor) is one who occupies a stand for his company receives the bill from the exhibition organiser and settles it directly. A represented firm (indirect exhibitor) is one who does not have a stand of his own, but presents his products on a stand of a direct exhibitor. Co-exhibitors at an exhibitor's stand or participants at a collective stand are also considered as exhibitors for statistical purposes if they exhibit their own goods employing their own personnel on the exhibitor's stand or at a common stand organised by a collective stand organiser and their autonomy can be undoubtedly recognized even without physical separation. These companies are considered as exhibitors regardless that the invoice is being issued on the exhibitor or on a collective stand organiser. The nature of the participation and the identity of each exhibitor at the stand should be very clear from the application form sent to the exhibition organizer.

Visitors

The number of visitors is calculated on evidence. The number of paying visitors is established through financial evidence: number of sold tickets (prepaid or on the spot) and number of tickets/entry passes paid by the exhibitor or a third party. Visitors with paid passes for a given period are calculated on the basis of a financially reasonable minimum number of uses of the pass. 4 visitors are counted for each family ticket sold. For persons arriving with vouchers, registration cards or similar valid free passes, tickets can be counted as visitors only if evidence is available.

The number of foreign visitors is established either by tickets sold at special counters for foreigners, filled in-registration cards with evidence of the foreign origin of the visitor or through representative visitor surveys.

DEFINITIONS

CLC-VECTA (The Netherlands)

Space

Net exhibition space: sum of booth space and any space utilized by the organizer for features that have a direct relation to the theme of the exhibition.

Exhibitors

Exhibitor entity that displays products or services accepted by the organizer, with personnel present at the exhibition, including main exhibitors and co-exhibitors.

Visitors

A visitor is a person who visits an event once or several times during the days when the event/ the trade fair ground is open for persons in possession of an entry ticket.

A visitor is:

- A person who obtained an entry ticket during the duration of the event.
- A person who obtained an entry ticket during the period of pre-registration and visited the event/ the trade fair ground at least once during the duration of the event.
- A person who obtained a complimentary entry ticket and visited the event/ the trade fair ground at least once during the duration of the event.
- A person who is in the possession of an annual season ticket and visited the event/ the trade fair ground at least once during the duration of the event.
- A person who is in the possession of a press ticket and visited the event/ the trade fair ground at least once during the duration of the event.

Exhibitor, organizer, service and personnel cards and passes are not counted.

FKM (Germany and some events in Italy)

Space

The rented stand space is broken down according to hall space and outdoor exhibition space, as well as according to space rented by domestic or foreign exhibitors. Stands, display panels and demonstrations, which deal with the theme of an event comprehensively or specific aspects of it, independent of exhibitors, are treated as special shows.

Net exhibition space consists of the rented stand space and space for special shows. Gross exhibition space consists of the net space plus the corresponding access and service areas.

Exhibitors

Companies or organizations, which offer goods or services via their own personnel from their own separate rented space, are counted as exhibitors.

Additionally represented firms are companies whose goods or services are offered by another exhibitor. The number of exhibitors may not include the figures for additionally represented firms.

Visitors

Beginning from 2001, the visitor figures are calculated according to the number of entries to the trade fair centre. The number of entries per day can, on the one hand, be determined by an electronic visitor admission system, whereby a maximum of one entry is registered per day.

Organizers which do not use such a system, can calculate the number of visitors according to the number of day tickets sold and the minimum use of multiple-day tickets sold; it is assumed that such tickets are used at least as often as is economically worthwhile in comparison to the day ticket. Basis for establishing the number of visitors can also be a registration, irrespective of whether an entrance fee has to be paid or not. In such cases, the number of entries can be determined by a visitors-admission-system or – if an entrance fee has to be paid – by the minimal use of the tickets sold.

FKM-Austria (Austria & Croatia)

Space

The total rented space of an event is based on the amount of space rented by the individual exhibitors. The amount of rented space is divided into hall areas and open-air areas, and is also differentiated between domestic and foreign exhibitors.

Exhibitors

Exhibitor figures are compiled from the number of companies who have rented an individual stand and who use their own personnel to promote goods or services. Represented firms are companies whose goods or services are offered by another exhibitor. The number of exhibitors may not be added to the number of represented firms.

Visitors

The number of visitors is based on the amount of entrance tickets sold or is based on an electronic registration system. One entrance per visitor per day is counted. Visitors buying a multiple entrance ticket can use the ticket on several days during the show (counting of entry is based on the ticket price – if the ticket costs 20 % more than the one day ticket, two visitors are counted). Complimentary tickets, exhibitor tickets, press tickets etc. have not been taken into consideration.

Free entrance tickets are counted if based on an electronic registration system and the registration includes the full address of the visitor.

DEFINITIONS

ISF - Istituto di certificazione dati Statistici Fieristici (Italy)

Note: In Italy, the specific events audited by FKM will be identified as "audited by FKM"; the ones audited by ISF (Istituto di certificazione dati Statistici Fieristici) will be identified as "audited by ISF"; the data for all the others events are provided by the Conference of Italian Regions and Autonomous Provinces.

Space

The rented space of a fair is the area effectively occupied by the exhibitors, invoiced and paid at the official price. The space is divided up in hall space and open-air space and in area rented by Italian and foreign exhibitors. Areas given free of charge to private exhibitors are not counted.

Exhibitors

An exhibitor with his own stand (direct exhibitor) is one who occupies a stand for his company, receives the invoice and pays it. Exhibitor figures are divided up in Italian and foreign exhibitors. A represented firm (indirect exhibitor) does not have a stand of his own, but is present in the stand of a direct exhibitor. He cannot be considered, if he does not pay the official fee for the participation

Visitors

Any person entering a trade fair presenting a ticket or a card proving payment of the entrance fee, or an invitation card with a control slip is considered as a visitor. Visitors admitted free of charge are counted only, if they give elements for their qualification and identification. Foreign visitors are counted only, if their identification is possible. Honorary cards, exhibitor, press and service cards and passes are not counted. Permanent access cards are counted only once.

OJS (France)

Space

The given figures refer to area (booth space) occupied by exhibitors and co-exhibitors whether it is paid or unpaid. It corresponds to the number of square meters effectively occupied. It does not include in this case the area used for features in relation with the theme of the exhibition.

Exhibitors and co-exhibitors

The main exhibitor is the entity contracting directly with the organizer and presents its products/services with its own personnel. Co-exhibitor is the entity which presents its products/services on the main exhibitor's stand under his trade mark with its own personal.

Visitors

Any person entering the fair / trade show during its official opening hours who presents at control access either a ticket, or a card proving payment on the entrance fee or an invitation card with a numbered control slip is considered as visitor. A journalist is counted as visitor. Visitors exclude the staff of exhibitors, exhibition centres, services providers and organizers' staff. An additional visit, to be verified as made on a different day from the first visit is considered as a re-visit. The visitor whose address is located in another European or third country is considered as foreign visitor. The figures listed in the Euro Fair Statistics brochure concern the number of total visits: "visitors entries" is the total number of visitors admissions at the fair / trade show during its official opening hours.

Russian Union of Exhibitions and Fairs (RUEF)

Space

The total rented space includes both hall space and open-air exhibition space rented by domestic and foreign exhibitors. The rented space is subdivided into national and foreign area in accordance with an exhibitor classification.

Exhibitors

The exhibitor figures include those companies who rented on any terms (paid or free of charge) an individual booth for the full period of an exhibition event and who used their own or employed personnel to promote goods and services. Exhibitors are considered both main and co-exhibitors. A represented company is one that displays its goods and services on a main exhibitor' booth, without personnel present.

The number of exhibitors may not be added to the number represented firms

Visitors

Visitor figures are determined by an electronic or a non-electronic visitor control, as well as by a number of paid entry tickets and individual invitations collected at the entrance. Speakers and participants of complimentary events (seminars, conferences, congresses etc.) can be added only if they were registered at the entrance and visited the exhibition event. Honorary cards, administration personnel, exhibitors and press cards are not counted.
